Enfinity

AGENTIC AI

Your hiring challenges, answered stage by stage.

Every challenge on the outer ring is solved by a stage of the hiring journey — orchestrated by Enfinity, our Agentic AI layer.

YOUR CHALLENGE	HOW ELEVATUS ANSWERS	STAGE
01 Business context	→ Pipelines configured per entity, region and role.	A
02 Flexibility	→ Unlimited no-code pipelines and approval flows.	A E
03 Speed to value	→ AI matching sources and screens talent faster.	B C
04 Manual workload	→ Smart filtration and automated assessments.	C D
05 Visibility	→ Real-time analytics and one team hub.	D E
06 Scalability	→ Assess thousands in days; onboard before day one.	D F

Keep your stack. Elevatus plugs into it.

No rip-and-replace, no 180° shift. Elevatus connects to the systems your teams already use, so every tool keeps its place — and every stage gets smarter.

One Agentic AI recruitment platform.

Six products, one journey. Each one owns a stage — Enfinity runs across all of them.

01
